Ruby on Rails 5.x

Do início ao fim!

Melhorando a Index (Coin e MiningType)

Plural para a i18n:

```
    https://guides.rubyonrails.org/i18n.html#translations-for
-active-record-models
```

Melhorando a Index (Coin e MiningType)

Altere a **views/mining_types/index.html.erb** para:

```
<p id="notice"><%= notice %></p>

<h1><%= Coin.model_name.human(count: @coins.count) %></h1>
<table class="table table-hover">
...
<td><%= link_to t('links.delete'), coin, method: :delete, data: { confirm:
t('messages.confirm') } %></td>
...
<%= link_to t('links.new'), new_coin_path, class: "btn btn-primary" %>
```

Melhorando a Index (Coin e MiningType)

Altere a **views/mining_types/index.html.erb** para:

```erb
<p id="notice"><%= notice %></p>

<h1><%= MiningType.model_name.human(count: @mining_types.count) %></h1>
<table class="table table-hover">
...
<td><%= link_to t('links.delete'), coin, method: :delete, data: { confirm: t('messages.confirm') } %></td>
...
<%= link_to t('links.new'), new_coin_path, class: "btn btn-primary" %>
```

Melhorando a Index (Coin e MiningType)

Lembre-se de adicionar a chave **link.new** e **messages.confirm** em **config/locales** para EN e PT-BR
